Food and drink

Policy statement

Wanborough Playgroup regards snack and meal times as an important part of the setting's day. Eating represents a social time for children and adults and helps children to learn about healthy eating and encourages table manners. We promote healthy eating using resources and materials from a variety of sources. At snack and meal times, we aim to provide nutritious food, which meets the children's individual dietary needs.

Procedures

We follow these procedures to promote healthy eating in our setting.

- Before a child starts to attend the setting, we find out from parents their children's dietary needs and preferences, including any allergies. (See the Managing Children with Allergies policy.)
- We record information about each child's dietary needs in her/his registration record and parents sign the record to signify that it is correct.
- We regularly consult with parents to ensure that our records of their children's dietary needs - including any allergies - are up-to-date. Parents sign the up-dated record to signify that it is correct.
- We display current information about individual children's dietary needs in our register so that all staff and volunteers are fully informed about them.
- We implement systems to ensure that children receive only food and drink that is consistent with their dietary needs and preferences as well as their parents' wishes.
- We display the current days snacks on the snack board in the cloakroom and on the "Healthy Eating" board in the hall
- We provide nutritious food for all meals and snacks, avoiding large quantities of saturated fat, sugar and salt and artificial additives, preservatives and colourings.
- We include a variety of foods from three main food groups:
 - dairy foods;
 - grains and cereals; and
 - fruit and vegetables.
- We include foods from the diet of each of the children's cultural backgrounds, providing children with familiar foods and introducing them to new ones.
- We take care not to provide food containing nuts or nut products and are especially vigilant where we have a child who has a known allergy to nuts.
- Through discussion with parents and research reading by staff, we obtain information about the dietary rules of the religious groups to which children and their parents belong, and of vegetarians and vegans, and about food allergies. We take account of this information in the provision of food and drinks.
- We require staff to show sensitivity in providing for children's diets and allergies. Staff do not use a child's diet or allergy as a label for the child or make a child feel singled out because of her/his diet or allergy.
- We operate a rolling snack whereby children can choose when to have their snack. The snack bar usually operates between 10.00am and 11.00am. An adult sits with 6 children at a time.
- We use meal and snack times to help children to develop independence through making choices, serving food and drink and feeding themselves.
- We provide children with utensils that are appropriate for their ages and stages of development and that take account of the eating practices in their cultures.
- We have fresh drinking water constantly available for the children. We inform the children about how to obtain the water and that they can ask for water at any time during the day.

- We inform parents who provide food for their children about the storage facilities available in the setting.
- We give parents who provide food for their children information about suitable containers for food.
- In order to protect children with food allergies, we discourage children from sharing and swapping their food with one another.
- For children who drink milk, we provide semi-skimmed pasteurised milk.
- On special occasions e.g. a birthday or holiday parents may provide cakes or treats for the children. Cakes will be used as part of our snack routine with the ingredients scrutinised before giving them to the children. Sweets will be given out at the end of the session so that the Parent/ Carer is aware and can therefore decide if it appropriate to let the child consume it.
- In cases of food poisoning affecting 2 or more children, we will notify Ofsted

Packed lunches

We:

- Send parents a copy of our “Guide to Packed Lunches and Lunch Club”
- Ask parents to put cool blocks in their child’s lunchbox in order to keep it cool;
- inform parents of our policy on healthy eating;
- encourage parents to provide sandwiches with a healthy filling, fruit, and milk based desserts such as yoghurt or crème fraîche. We discourage sweet drinks and can provide children with water or milk;
- discourage packed lunch contents that consist largely of crisps, processed foods, sweet drinks and sweet products such as cakes or biscuits. We reserve the right to return this food to the parent as a last resort;
- ensure staff sit with children to eat their snack/lunch so that the mealtime is a social occasion.

Legal Framework

- Regulation (EC) 852/2004 of the European Parliament and of the Council on the hygiene of foodstuffs

Further guidance
